12	12	24	36	48	60	72	84	96	108	120	132	144

Why do you need to practise your times tables?

Knowing your times tables really well means:

- You can complete harder tasks in maths
- You will feel more confident in maths lessons
- If you are in year 3 or 4, you will be better prepared for the end of year 4 times table test (MTC)

- When completing complicated questions, you can focus on the hard parts rather than worrying about the times tables

How to find the app

In Google, search for 'PiXL times tables app'. The correct app should appear as the first result. Download it to your phone or tablet.

Once downloaded, it will appear with a yellow icon and the words 'Mental Maths'

How to log in

SCHOOL CODE: This is the same for everyone.
It goes in the first box.

DB5454

If you don't have this in your reading diary,
write it down now!

Your personal username and password go in
these boxes. These should be in your reading
diary.

How to use the app

Practice = choose single times tables to practise until you feel really confident with them. Good if you have a test coming up for a specific times table!

Time Attack = choose a single times table and try to beat the clock! Can you beat your previous time or get an award?

How to use the app

The Check = check your knowledge of ALL 12 times tables in one go! Perfect for year 5 and 6.

Games = play against others in your school or in the world to compete for awards. 3 different games to choose from.
